Plan of Action – Case Masters

Foundation and planning

Short Term Goal: Understanding of demographics (statistics)

Long term Goal: Assess number of units to build, areas and amenities in demand, building a whole rounded community

Enlisting Builders

Short Term: Incentives and streamlined processes for builders

Long term: Tax benefits, access to subsidized resources (land, materials, etc), streamlined permitting processes

Smart Construction

Short Term: Streamline procurement, embrace sustainable design, and use modular construction for cost efficiency

Long term: Encourage builder collaboration and enhance legal support for swift dispute resolution

Stage 1

Stage 2

Stage 3

Stage 4

Stage 5

Stage 6

Policy Dev. & Pilot project

Short-term: Research about new policies to be implemented and drawbacks in existing policies

Long-term: Expediated implementation of sustainable housing models

Public awareness

Short-term: Collaborate with government and NGOs for awareness of housing changes

Long-term: Foster ongoing public education partnerships on housing and affordability strategies

Empowering Homeowners

Short-term: Equip homeowners with maintenance skills and resources

Long-term: Establish community-driven support and a homeowner's repair fund
